

Bhanu Pratap Singh Chauhan

🏠 4 Years of Experience [🌐 LinkedIn](#) [✉ bhanusinghwebdev@gmail.com](mailto:bhanusinghwebdev@gmail.com) [📞 8962230744](tel:8962230744) [🔗 Portfolio Website](#)

Professional Experience

Senior Software Engineer, [Radiansys Inc \(Vfx AI\)](#) [🔗](#)

Jan 2025 – Present | Gurgaon, Haryana

- Worked across multiple large-scale React and Next.js applications, owning architecture-heavy features and solving performance-sensitive problems end-to-end.
- Partnered closely with backend, design, and PM teams to deliver features efficiently and improve development workflows across the engineering team.
- Strengthened reliability across projects through reusable components, predictable patterns, and consistent testing practice.
- Led a team of 6 engineers to architect and develop the frontend platform for a new AI-driven enterprise product, overseeing the end-to-end technical strategy and delivery.
- Engineered a robust frontend workflow system featuring a dynamic form renderer, optimizing on-the-fly data processing and complex state management.
- Owned a critical shared package serving 2,000+ live clients, spearheading performance optimizations, standardizing cross-team consistency, and elevating overall Developer Experience (DX).
- Developed complex core rich-text editor components from the ground up, leveraging **ProseMirror** and **Tiptap** to enhance internal UI libraries.

Software Engineer, [GraniteStack](#) [🔗](#)

Oct 2022 – Jan 2025

- Delivered impactful features as a key member of the core product team, ensuring seamless functionality for end users.
- Addressed technical debt to maintain scalability and performance.
- Improved legacy code quality with custom hooks and reusable components.
- Mentored junior team members, promoting collaboration and best practices.

Projects

GraniteStack, Software Engineer

Oct 2022 – Jan 2025

- Engineered a dynamic form rendering engine that automatically converted SQL schemas into fully validated interfaces using Formik and Yup.
- Optimized rendering performance and state management across the platform by leveraging advanced React Hooks, Redux, and RxJS.
- Delivered complex custom features and drove frontend R&D, significantly improving system scalability and development velocity.
- Executed critical technical platform enhancements that served as key differentiators, directly contributing to the acquisition of 3 new clients.
- **Tech Stack:** React, CRA, Redux, TypeScript, ReactFlow, Formik, RxJS, Yup, Grommet, Styled-components, AWS.

Granite

Oct 2022 – Jan 2025

- Led R&D and architectural design for a scalable in-house business systems module and Maintained core platform stability (Granite) across multiple projects, resolving complex technical challenges with highly scalable solutions.

Skills

Languages & Frameworks: JavaScript (ES6+), TypeScript, HTML5, CSS3, ReactJS, Next.js, Redux, Redux Toolkit

Libraries & Tools: Jest, Vitest, React Query (TanStack Query), RxJS, Formik, Yup, Styled-components, Grommet, React Flow, Tiptap, Axios, Webpack, Babel, Git

Cloud & DevOps: AWS (Amplify, S3, CloudFront, CodeArtifact),

Core Competencies: Frontend Architecture, State Management, Performance Optimization, Responsive Design, API Integration, Component Library Development, Code Reviews, Agile Development

Education

Bachelor of Technology (Computer Science and Engineering) 2021 CGPA-7.5 ITM, Gwalior
